

Remarks

Reconsideration and allowance of the above identified application is respectfully requested.

In the Office Action dated 8/31/04 the Examiner rejected pending claims 1-4 under 35 USC 102. Claims 5-10 were indicated as allowable if rewritten. The Office Action and the reference cited therein have been carefully considered and the above amendment is presented in an effort to comply with Patent Office requirements and advance prosecution of the application.

Claim 1 has been rewritten to include the limitations of Claims 4 and 5 as suggested by the Examiner. Claims 4 and 5 have been cancelled.

Thus, Claim 1 as now amended, is not taught or suggested in the cited reference. Specifically, there is no teaching or suggestion in Olson that vertically displaced secondary bars, which form pneumatic conduits, are mounted to main toolbars.

It is therefore believed that the rejection of all the claims should be withdrawn and that this application is in condition for allowance. Such allowance is respectfully requested.

Any fees or charges due as a result of filing of the present communication may be charged against Deposit Account 04-0525.

Respectfully,

Attorney for Applicant(s)

A. Nicholas Trausch
